

MANAGEMENT TRAINING PROGRAM

HOTEL EQUITIES is a full-service ownership, management and development firm operating more than 100 hotels throughout North America. Our innovative and proprietary operational strategies along with our world-class leadership and development programs have afforded us recognition as leaders in the hospitality industry. Our results for our stakeholders are maximum financial performance and best in class guest experience.

Manager in Training (MIT) Program

Hotel Equities is offering six and nine month training programs for college graduates. The length of the program is dependent on your previous experience in the industry—either through internships or job experience. The program consists of placement at a specific hotel, balanced with key opportunities to engage with senior leadership in the company, as well as special assignments (hotel openings, task force). Management trainees will become part of a collective learning community with other recent college graduates from various universities throughout the country. For more information or for consideration in upcoming programs (to begin January 2017 and May 2017), please send your resume to Nancy Curtin Morris, VP of Learning and People Development (ncmorris@hotelequities.com).

Looking for a summer internship?

We are offering summer internships at multiple locations throughout our company. As a prerequisite to our management training program, the intern program is designed to gain valuable onsite experience and to begin to develop a relationship with Hotel Equities team members. Focus for internships will be in general operational areas such as front office, housekeeping, food and beverage as well as maintenance. To be considered, please email your resume to Nancy Curtin Morris. Please include areas of the country or a specific city where you would be interested in interning (please visit www.hotelequities.com for specific locations).

The skills & experience I gained was key to my development and success in the industry. The team at Hotel Equities understands that excellence in hospitality is achieved with a servant attitude and through their training and support, I feel like the sky is the limit!

-Nik P. (Business Analyst)
